## HOW CAN A LOCKSMITH ENHANCE THE SECURITY OF YOUR HOME?

Shain and his team understand that increasing or maintaining security in your home is an extremely important, if not, the most important responsibility of keeping your home and family safe.

### EMERGENCY LOCKSMITH SERVICES

#### Can't get into your home?

Have you ever been locked out of your home, with or without your family by your side? You're staring at your locked door wondering how you could have possibly forgotten your keys and locked you and your family out. What if it's late and you and your family are locked out when all you want to do is slump into your warm bed?

If you attempt to jimmy a door or window open yourself, you run the risk of permanently damaging the lock – which means you'll have to replace it – and fix any damage to the door or window. How well would you sleep knowing that your door or window is broken and your house is less safe?

Calling a reliable, professional locksmith to replace locks and keys or let you in to collect your spare keys will save you money in the long run.

#### Locking yourself out isn't the only emergency

Being broken into is a terrible feeling. Your stomach drops and your legs feel funny. And as you walk through your house trying to determine what's gone and what's not, you wonder why someone would do this. And how did the burglars get in? You start to look at the locks on your doors and windows, and even the quality of your screen doors.

*Are you sure your home security screens are up to the Australian standard?*

### SHAIN'S LOCAL LOCKSMITH OFFERS A FREE QUOTE.

We can assess your home or business and determine what would be the best way to help keep your home safe.

## WHICH OTHER SYSTEMS CAN ENHANCE THE SECURITY OF YOUR CONSTRUCTION PROJECT?

Emergency Locksmith

Insurance Work

Alarms

Home Safe Sales & Installations Brisbane
